ARB Guy Rope Set w/ Carabiner (2 Pk)

Application:

Touring

Part No. & Barcode:

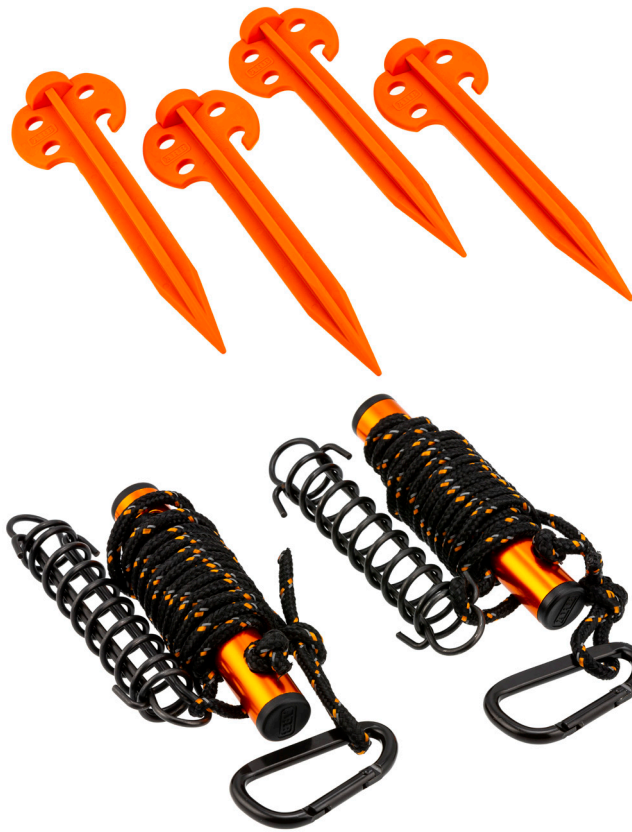

Refer to table below

Product Group:

804 - GENERAL ACCESSORIES

Availability Date:

October 2020

Product Specification

ARB is pleased to introduce two updates to our popular touring and camping range - the ARB Supergrip Sand Pegs and ARB Guy Rope Set, now available.

The ARB Supergrip Sand Pegs (4-pack) main updates are changing the size of the peg to a 370mm peg, this is considerable change from its smaller predecessor. Still keeping the strong durable polycarbonate materials that you would expect in a high end peg, this peg will handle the strong winds of the beach to sudden gusts.

The ARB Guy Rope Set (2-pack) has also been updated to incorporate a carabiner for simple and easy clip on to your ARB Awning. The ARB Guy Rope still incorporates a heavy-duty spring to secure and improve tension on your ARB Awning or Track Shelter setup.
